- ST 51
- ST 40
- ST 12/5
- ST 24

3) Plug in Tousek connect module

4) Teach-in operator

By pressing the „Add drive field", a new drive can be added in the direct connection.

14:55 ....LTE ▪

All Gates

Direct connection

＋ **Add Operator** ›

Online connection

No gates available

Version: 2.0.0

5) Connect module directly with smartphone

14:56 ....LTE ▪

Close   **Add Operator**

Connect to Wifi of operator.

1 Go into your device settings.

2 Connect to Wifi of operator.
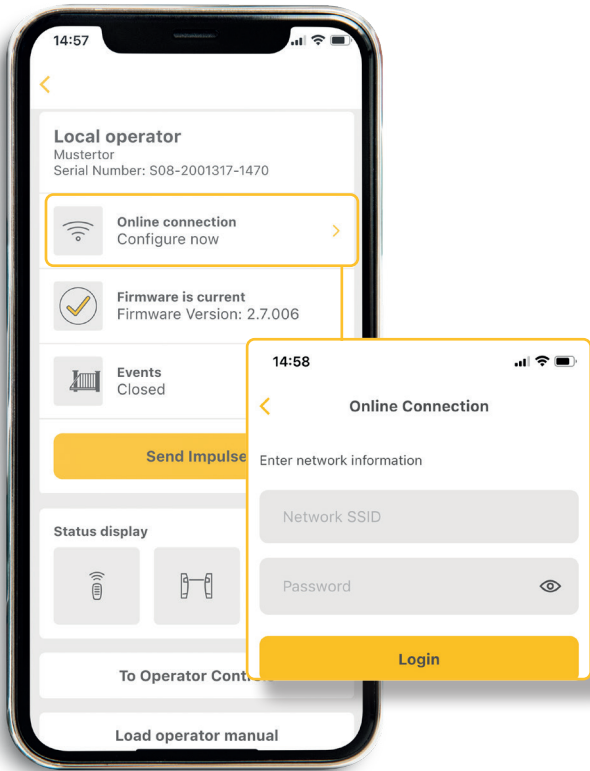

3 Return to the app.

After plugging in, the module must be activated by by scanning the QR code or by entering the password manually.

Both variants are located on the side of the TC module.

MAC:
SSID: TCON XXXX   **PW**: 8XX9X7XX

Join „TCON ..." Network
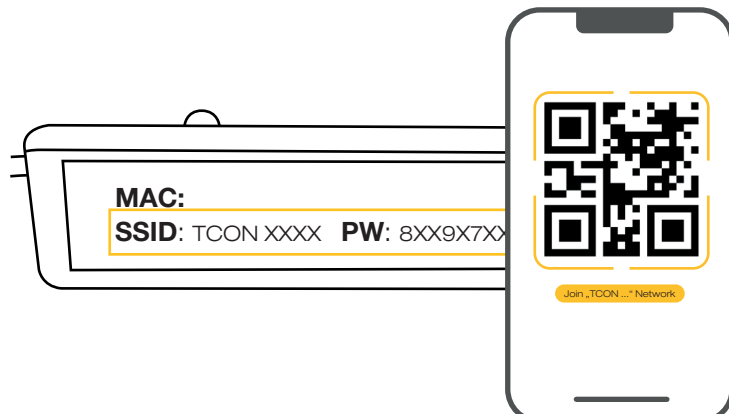

6) Connect module to the Internet

Online connection

To be able to set up the drive online, you have to connect to a WLAN.
You will then be in online mode and can use the functions of this connection.
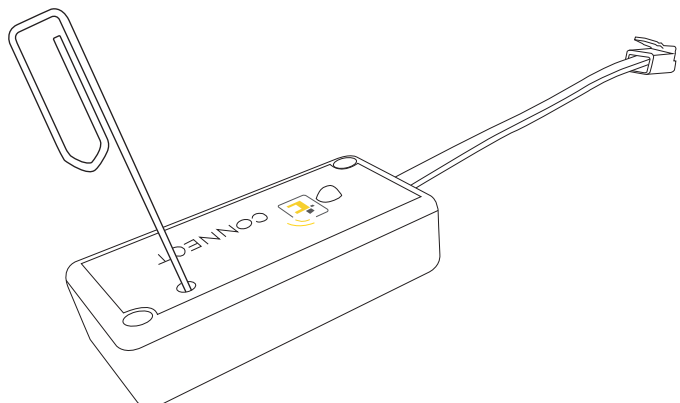

From online to direct mode

To switch from online mode to direct mode, press the reset button on the tousek connect module with a thin object and hold the button for at least 2 seconds. Then simply select the TCON module in the app.

continuous luminous - connected
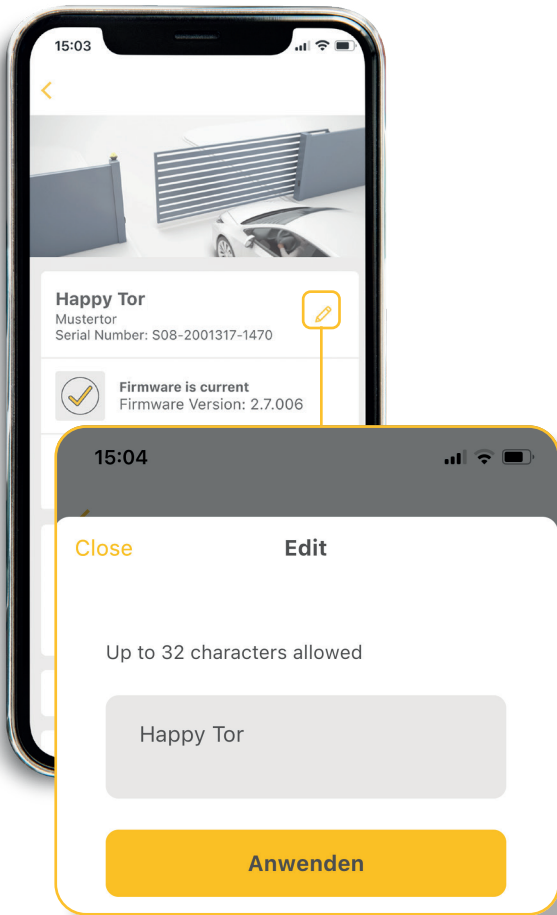

blinking - can be reconnected

To switch from direct to online mode, simply press the reset button again until the lamp flashes orange

OR

If you are in the direct mode you can log in to the online mode. (S. 6)

Rename operator

To rename the operators name simply select the pencil symbol and enter the desired name. The change is only possible in online mode.

Status display

In the status display you can see all inputs and outputs of the operator and whether they are activated or deactivated.

## Maintenance mode

Pulse suppression to prevent unintentional gate movement. Both pulse buttons and handheld transmitters are suppressed.

7

Control menu

Convenient access to all data and functions of the controller at any time and from any place.

Menu navigation

Example PULL T ! . Depending on the type of gate and the type of operator, the menu may be different.
